ROAM PORTABLE

INTELLIGENT VIDEO SOLUTIONS

Portable video capture. Wherever learning happens.

ROAM Portable brings VALT's video capture capabilities wherever they're needed. The kit includes an iPad Pro, iPad minis, tripod stands, a wireless router, and a charger, all packaged in a rolling hard case for easy transport and rapid setup. Designed for flexibility, ROAM Portable enables teams to record simulations, interviews, training sessions, and assessments across a variety of environments.

VALT makes it easy to capture, organize, and review video in one centralized platform, helping organizations turn recorded experiences into opportunities for learning and improvement.
